

## Keeping it Fresh – Create Your Own Salad & Vegetable Garden

### Windowsill & Patio Planters

Salads & herbs are some of our favourite crops to grow. One of the things we love the most about growing salads & herbs is that they grow very quickly. You can grow them anywhere and if you're short of space the our [Saladgrow](#) & [Herbgrow](#) planters could be just what you're looking for.

The drip proof design also makes the Saladgrow & Herbgrow perfect for windowsills, balconies & patios. Our Saladgrow & Herbgrow planters are low-maintenance planters, perfect for busy people or beginners and thanks to the clever SmartReservoir and FeederMats, your herbs and salads will be kept perfectly fed and watered so there's no more coming home to find your plants wilted or waterlogged and no more need to worry about holiday watering cover.

If you want to take things a step further then add some vegetables into the mix and create your own mini allotment with our Vitogrow Planter. The Vitogrow [Mini Allotment](#) is the best of both worlds, combining our best-selling Quadgrow planter with a handy salad & herb planter. It's 4x 11 litre pots, perfect for tall cropping plants such as tomatoes, beans and cucumbers and a central planter for all your salads, herbs and shallow rooting veg. You can even grow salads & herbs all year round outdoors by adding the mini greenhouse option, protecting your crops from frosts.

As with all our grow planters, the Vitogrow Mini Allotment keeps your plants perfectly watered and fed at all times, thanks to the large SmartReservoir for controlled watering, giving you healthier plants and bigger harvests.

About Greenhouse Sensation

Greenhouse Sensation is a retailer and manufacturer of 'brilliant gardening products'. The company designed the award-winning [Vitopod Propagator](#), [Grow Planters](#) and [Click & Drip Irrigation kits](#), all of which are made by Greenhouse Sensation's own team in England.

For 2012 Greenhouse Sensation has carefully selected products designed by other companies to be featured in its catalogue and on its website, making the website and brochure an essential destination for gardeners.

All products available on the Greenhouse Sensation website are extensively trialed in the company's greenhouses and polytunnels in Lancashire, where we also grow bananas. Greenhouse Sensations products are made in England from recycled material.
